Digital Marketing

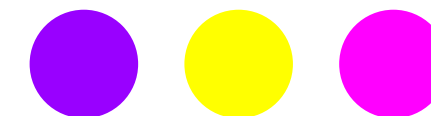

Lord of the Pings: Best Practices and Strategies for Tracking Engagement

Presenter

Ted Magdzinski

- + **SVP, Partnerships & Integrations**
- + **Former campus enrollment marketing leader + Slate power user**
- + **Slate implementation at the U of Cincinnati**
- + **The Sophisticated and Sympathetic Advisor**

Did you know?

Carnegie Slate Optimization, powered by Underscore, has worked with over 200 Slate partner schools since 2018.

Presenter

Vivien Francis

- + Asst. Director of Digital Marketing**
- + Admissions & Marketing Team + Slate Power User**
- + GMAC APAC marketing representative**
- + MBA, ESDES Lyon Business School**

+ today's agenda

1. Ping 101
2. Querying Ping Data
3. Digital Ad Conversion
4. ASB Case Study
5. External Services

Did you know?

The Asia School of Business (in collaboration with MIT Sloan School of Management) offers **two** different MBA programs, a Master of Central Banking as well as Executive Education programs.

The Challenge

How can we leverage Ping in Slate to better track engagement & ROI on digital ads

1

Ping 101

What is Ping?

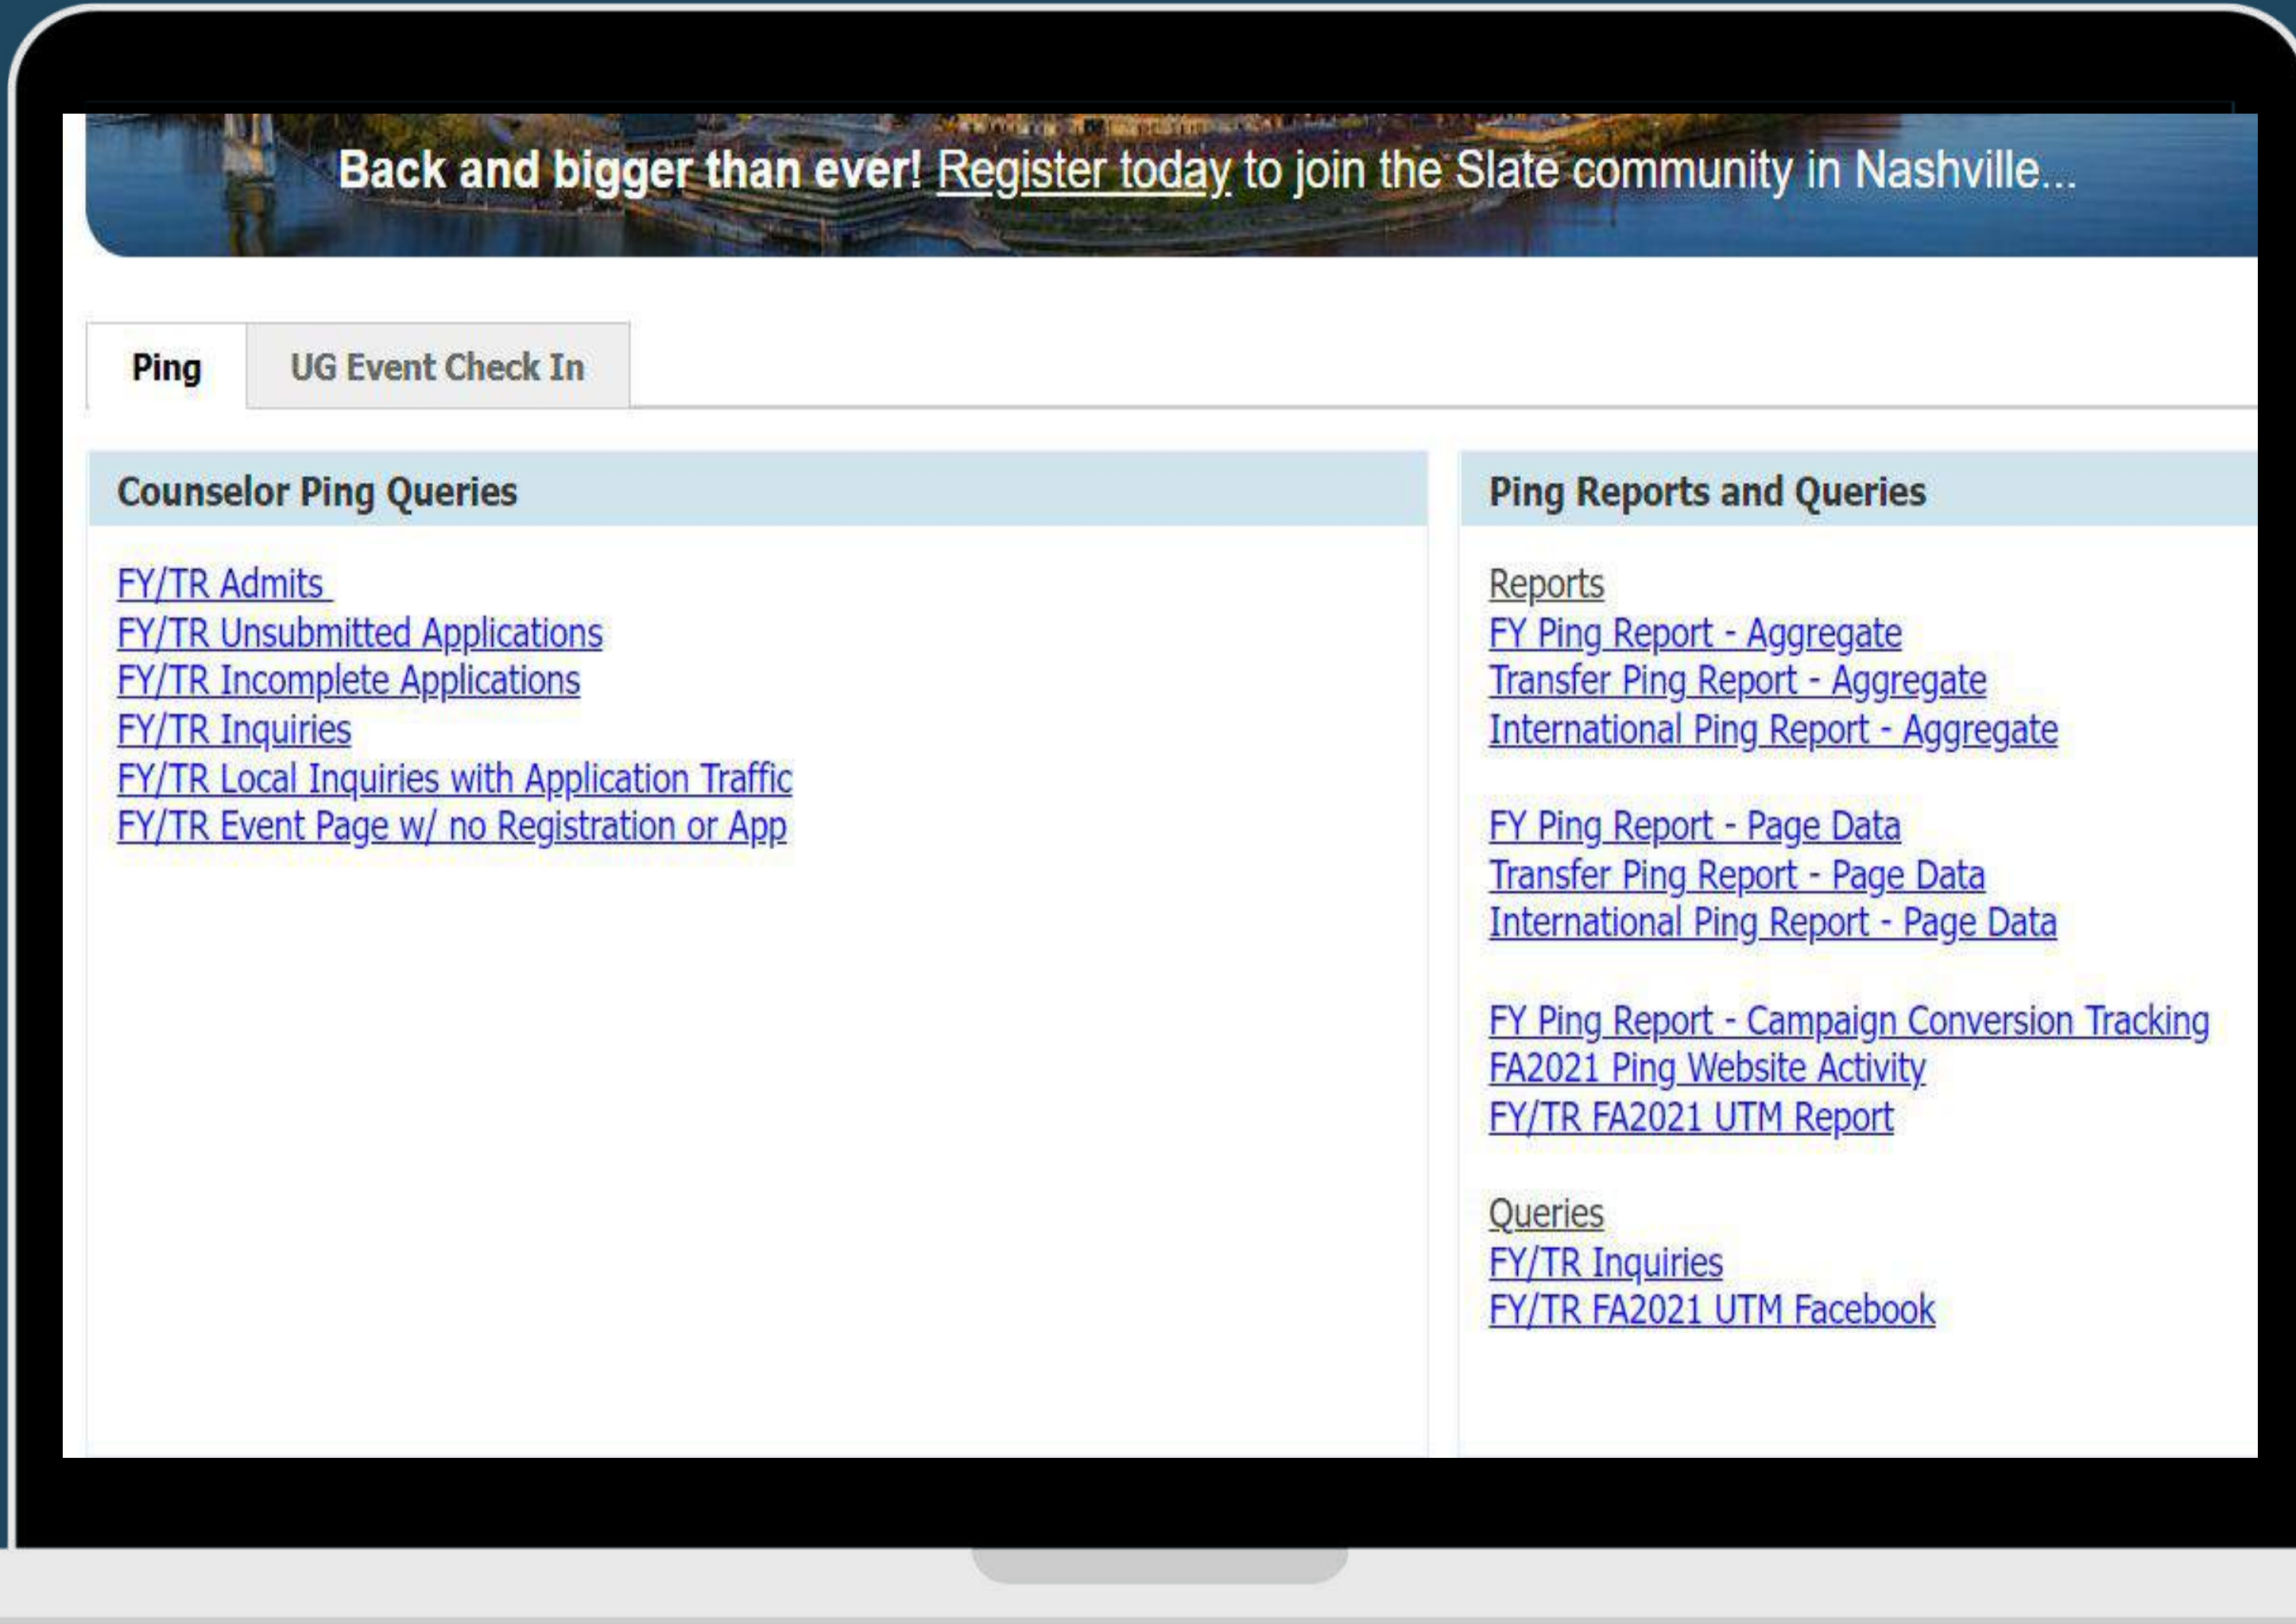

- Slate's web analytics tool that enables you to track remote web access and correlate those 'hits' to records in Slate
- Can be added to both websites and Slate pages
- Logs activity when a person leaves a website - allows us to record duration and timestamp

There's a fine line
between cool and
creepy.

So what makes it special?

- Retroactive matching
- Unmatched Ping records can be queried
- Visit duration tells a story

Limitations to consider

- No built-in reports - how do you use the data?
- Forms must be embedded to grab Ping data
- Matches aren't guaranteed
- Data volume can affect performance

2

Querying Ping Data

Types of Queries

- Unsubmitted/Incomplete Apps with Application Page Traffic
- Local Inquiries with Event Landing Page Traffic
- Event Page Traffic w/o Registration or Application
- Segmentations and motivators for communications

Types of Reports

- Aggregate Level of Activity
- Digital Ad Conversions
- Website Traffic
- Communication Campaign Performance

Sample Query - Admits by Counselor

Rows 1–100 of 156

What is UTM?

- Urchin Tracking Module
 - Variables assigned to links in emails and digital ads for tracking purposes.
 - Customizable and can be used in different combinations
- Example:
 - Source = carnegie
 - Medium = video
 - Term = youtube
 - Campaign = ug
 - Content = outreach

http://www.underscoreuniversity.edu/admissions/degrees?utm_source=carnegie&utm_medium=video&utm_term=youtube&utm_campaign=ug&utm_content=outreach

ASB Case Study

Prospect Activity - Quarterly Report YoY

Sources provides a summary of marketing campaign data based on UTM codes. The Sources view consists of data that each represent a UTM parameter. The UTM values are displayed in the aggregate from most to least accessed.

Sources (2021 Cycle)		Sources (2022 Cycle)		Medium (2021 Cycle)		Medium (2022 Cycle)		Campaign (2021 Cycle)		Campaign (2022 Cycle)	
google	3843	Google	13827	email	2881	search	13113	remarketing	1836	events	4700
slate	2597	slate	7231	ad	2168	email	7956	mcb	722	remarketing2021	1286
pardot	184	pardot	593	search	1631	social	840	deadlinereminder	562	scheduleacall	744
Facebook	91	Bing	445	social	151	searchadmba_SEA	763	newsletter	439	alumnispotlight	434
Gmail	70	Facebook	404	gmail	77	searchadmba	523	mba2021intake	343	corp.newsletter	405
LinkedIn	65	LinkedIn	381	website	63	webpage	325	admits	308	deadlinereminder	395

Insights from Ping Analytics (Quarterly Report)

- Google Search ads have been 3x more impactful this year compared to last year.
- Slate emails have seen a 278% increase in traction – events, schedule a call, alumni spotlight, deadline reminder
- Social Media (FB & LinkedIn): 4-6x more traction compared to same period last year.
- All digital channels are showing stronger results compared to the same period the year before.

Applicant Activity - Quarterly Report YoY

Sources (2021 Cycle)		Sources (2022 Cycle)		Medium (2021 Cycle)		Medium (2022 Cycle)		Campaign (2021 Cycle)		Campaign (2022 Cycle)	
slate	434	slate	552	email	441	email	585	deadlinereminder	255	events	147

partners	3	LinkedIn	7	linkclicks	2	socialmedia	2	wp_prospect	23	remarketing2021	23

Insights from Ping Analytics (Quarterly Report)

- Overall, visits on the apply page has dropped by 20%
- Slate emails have increased traction by 27% and is still the predominant driver
- Remarketing ad has seen a decline at the bottom of the funnel

Count

11,013 (2021 period)

14,029 (2020 period)

Ping data can be queried and reported on at the person level within the Query tool

- Query to identify active website visitors at prospect status
- Set up automated emails and/or retargeting ad to convert prospect to an inquiry/lead
- Take an action: fill an inquiry form

External Services

Integrating marketing data with Slate Ping Tracking so that information is reported from multiple sources such as:

- UTM Data from URLs
- Digital Ad sources (Google Ads, LinkedIn, Facebook, etc.)
- Website behavior (Google Analytics & Ping Tracking)

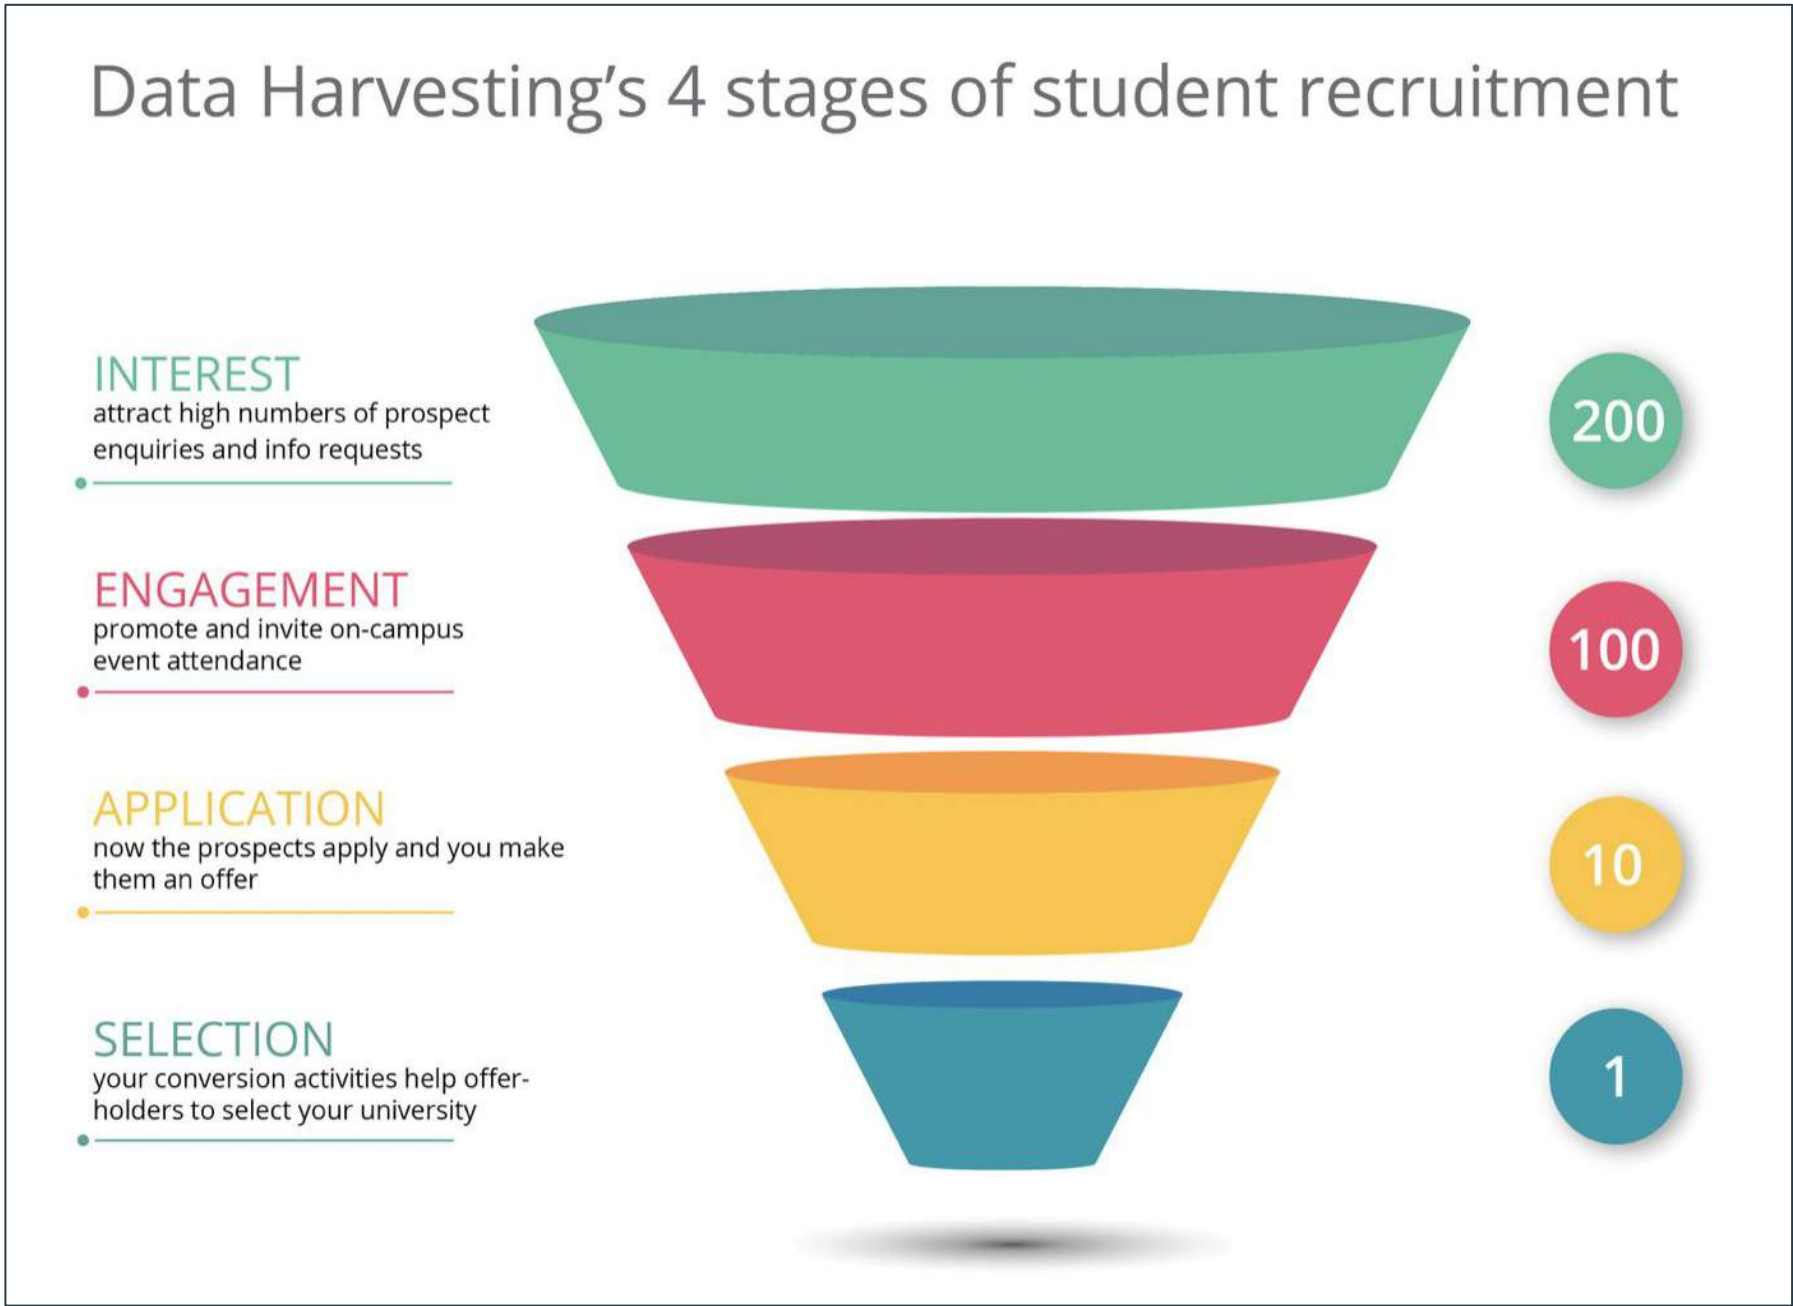

Tap into Google Analytics' Goals feature.

Slate Ping Tracking + Google Analytics (Goals)

- Implement Ping on Website Pages, Slate Pages (portals & forms)
- Ensure comms associated with forms are embedded with tracking scripts (Thank You page html)
- Ensure ad campaigns have standardized UTM parameters
- Set up relevant Goals on Google Analytics
- Decide on the most appropriate type of GA Goal

Funnel-Based Goal Setup

- Set up Ping Configurable Joins
 - Add Ping Duration
 - Ping Referrer
 - Ping UTM Sources
 - Ping URL
 - UTM Codes (campaign, source, medium)

Integrating Slate with PowerBI in Real Time

Edit Query

Folder	Marketing Comms
User	Vivien Francis
Base	Configurable Joins - Ping
Execution Mode	Retrieve all records and save recent result history
Web Service	JSON

- Export Ping CJ to PowerBI
- Combine data from website visits, direct traffic, paid ads, interaction
- Use the JSON web service to pull data in real time
- Export data to PowerBI for a full funnel review

Thank You!
