

# Track Your Efforts: Proving Your Communication Success

**Presenter**

---

# Chris

- + **Senior Slate Strategist, Implementations**
- + **Former recruiter and campus enrollment operations specialist**
- + **The Adventurous and Determined Challenger**

**Presenter**

---

# Megan

- + **Executive Vice President, Strategy, Slate Optimization team**
- + **Former communications coordinator**
- + **The Confident and Engaging Champion**

## Today's Goal

---

Learn how to collect data on engagement and report on ROI to inform real-time and future decision-making on your communication efforts.

# + today's agenda

---

1. **Ping** – How to track data?
2. **UTM** – How to collect data?
3. **Origin Sources** – How to best account for data?
4. **Querying + Reporting** – How to gather data?
5. **Portals** – How to display data?
6. **Questions + Answers**

1

# Ping - How to track data?

---

## Ping Follows the Student's Web Journey...

---

- Tool –
  - Track sites visited, once a known user
  - Added to Slate and institutional pages
  - Act as Slate's "Google Analytics"
  - Native to Slate
  
- Data used to –
  - Build on application data
  - Interpret behavior and interests
  - Show effectiveness of and enhance marketing efforts

# Ping Overview

# Ping Sources

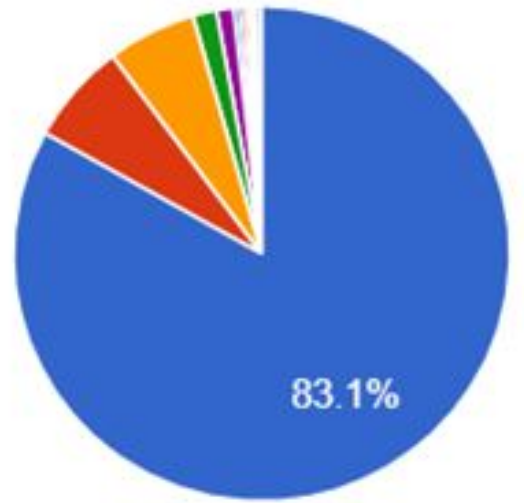

## Ping Sources

Browse traffic mediums, sources, and campaigns.

# UTM – How to collect data?

---

## UTMs Latch Onto Links...

---

- Tool –
  - “Urchin Tracking Module”
  - Assigns variables to links in emails and ads
  - Can be customized and used in different combinations
  - Can work with Ping
- Data used to –
  - Build on application data
  - Interpret behavior and interests
  - Show effectiveness of and enhance marketing efforts

# UTM Parameters

Five UTM parameters can be defined and captured in Slate:

UTM Parameter	Use	Example
utm_source	Identify the referring source	utm_source=Facebook
utm_medium	Identify the medium used	utm_medium=social
utm_campaign	Identify the campaign	utm_campaign=fall_apps
utm_term	Identify search terms	utm_term=apply
utm_content	Identify the click source	utm_content=social_ad

## Example

---

### Example:

Source = carnegie

Medium = video

Term = youtube

Campaign = ug

Content = outreach

[http://www.artcenter.edu/admissions/undergraduate-degrees.html?utm\\_source=carnegie&utm\\_medium=video&utm\\_campaign=ug&utm\\_term=youtube&utm\\_content=outreach](http://www.artcenter.edu/admissions/undergraduate-degrees.html?utm_source=carnegie&utm_medium=video&utm_campaign=ug&utm_term=youtube&utm_content=outreach)

3

# Origin Sources – How to best account for data?

---

## Origin Sources Give Credit to Each Type of Source...

- Tool –
  - Can be built or added to at any time
  - Accounts for multiple First Sources through Origin Groups
  - Organizes unique sources into Categories of like sources
  - Attributes the import of each student to their appropriate source
  
- Data used to –
  - Build on application data
  - Interpret behavior and interests
  - Show effectiveness of and enhance marketing efforts
